

We are organizing with the power of truth and we will continue to organize. We will overthrow this order with our organized power. Because in this world order, in this exploitation system, revolution is inevitable for justice and freedom. We will defend the fight won by our anarchist comrades who filled the streets and squares in 1886 with the motto "eight hours a day".

Salute to the comrades who fight against capitalism, states and other power forms..

Salute to comrades of FAU. We will win and we will win!!  
DAF
